Mr. Salvador Laspinas,
1535 Felix Huertas, Int.C.,
Manila.

Dear Bro. Laspinas:

I have your letter of Oct. 7th. You know I am sick. I am not able to give you all the information about Felix Manalo that you desire. He was a student in our mission and I was one of his teachers. We had him employed as an evangelist, paying him a salary. He was minister for the church at Singalong for some time. His wife accused him of cruelty and of adultery. She came to my house and showed the wounds which Felix had made by blows on her back. I called the doctor who is now in Manila to examine her wounds. The church at Singalong had an investigation of Felix. The wife of Felix came and made complaints, but Felix did not come. The church at Singalong voted that Felix was guilty of the charges of his wife. As a consequence we took away the salary that we were giving to Felix. The Felix left us.

I do not have further personal knowledge of the life of Felix. There was, however, a Teresa who studied with us. It was proven in court that Felix was the father of her child.

Bro. Baronía has much typewritten information about Felix Manalo and especially about the Teresa case, which he says he will be glad to furnish to any one desiring the information.

I hope you will be able to continue your work and that you will be very successful. I am

Cordially yours,

Leslie Wolfe
